

P.S. GARCIA

SAUVIGNON BLANC 2020 CASABLANCA

This Sauvignon Blanc comes from the coolest area in Casablanca valley, we make a special selection of two different clones from Tapihue vineyards.

Fruit from clone 1, is largely responsible for the mouth filling, freshness and minerality, while clone 242 delivers the intense aromatic and tropical fruit character of Casablanca.

This Sauvignon Blanc is the wine we like to drink at home with our family and friends, an exquisite blend with lively acidity, intense aromas and a nice weight in the mouth, a wine that is great complement of good food and nice moments.
