

P.S. GARCIA

SAUVIGNON BLANC 2021 ALGARROBO

This Sauvignon Blanc comes from Algarrobo Valley, situated at the occidental side of Casablanca Valley. We make a special selection of different blocks and clones from this vineyard.

Fruit from clone 107, is largely responsible for the mouth filling, freshness and minerality, while clone 242 delivers the intense aromatic and tropical fruit character of Casablanca.

Sauvignon Blanc is the wine we like to drink at home with our family and friends, an exquisite blend with lively acidity, intense aromas and a nice weight in the mouth, a wine that is great complement of good food and nice moments.

VARIETAL COMPOSITION

50% Sauvignon Blanc / Clone 107, Valle de Casablanca
50% Sauvignon Blanc / Clone 242, Valle de Casablanca
