

# P. S. GARCIA

## **SAUVIGNON BLANC 2022** **ALGARROBO**

This Sauvignon Blanc comes from Algarrobo Valley, situated at the occidental side of Casablanca Valley. We make a special selection of different blocks and clones from this vineyard.

Fruit from clone 242, is largely responsible for the mouth filling, freshness and minerality, while clone 242 delivers the intense aromatic and tropical fruit character of Casablanca.

Sauvignon Blanc is the wine we like to drink at home with our family and friends, an exquisite blend with lively acidity, intense aromas and a nice weight in the mouth, a wine that is great complement of good food and nice moments.
